Provider must submit documentation (including office chart notes and lab results) supporting that the member has met all approval criteria, or is currently undergoing treatment with Eylea, Lucentis, Beovu, Vabysmo or Visudyne. It is the policy of Envolve Vision that Eylea, Lucentis, Beovu, Vabysmo and Visudyne are medically necessary when prescribed by or in consultation with an ophthalmologist and the following criteria are met:

PATIENT IS CURRENTLY UNDERGOING TREATMENT WITH THIS MEDICATION (Stop here.)

Neovascular (Wet) Age-Related Macular Degeneration (must meet all):

- Diagnosis of neovascular (wet) age-related macular degeneration (AMD)
 - For Lucentis, Eylea or Beovu only: failure or clinically significant adverse effects to Avastin unless contraindicated or clinically significant adverse effects are experienced
 - For Vabysmo or Visudyne only: failure or clinically significant adverse effects to two of the following drugs: Avastin, Lucentis, Eylea or Beovu

Diabetic Retinopathy in Patients with or without Diabetic Macular Edema or Macular Edema Following Retinal Vein Occlusion (must meet all):

- Diagnosis of macular edema following retinal vein occlusion
 - For Lucentis or Eylea: failure or clinically significant adverse effects to Avastin unless contraindicated or clinically significant adverse effects are experienced

Diabetic Macular Edema (must meet all):

- Diagnosis of diabetic macular edema
 - For Eylea and Lucentis only: failure or clinically significant adverse effects to Avastin unless contraindicated or clinically significant adverse effects are experienced
 - For Eylea only: patient's baseline visual acuity is 20/50 or worse
 - For Vabysmo only: failure or clinically significant adverse effects to Avastin, Lucentis, and Eylea unless contraindicated or clinically significant adverse effects are experienced

Predominantly Classic Subfoveal Choroidal Neovascularization due to Presumed Ocular Histoplasmosis:

- Diagnosis of predominantly classic Subfoveal Choroidal Neovascularization due to presumed ocular histoplasmosis and request is for Visudyne

Myopic Choroidal Neovascularization:

- Diagnosis of myopic choroidal neovascularization and request is for Lucentis or Visudyne

Other diagnoses and indications: Provider must submit documentation and clinical rationale for Envolve Vision Medical Director peer review.
